Here is the Navajo EPA historical data from 24 stations near Four Corners. Would give us decent pre-spill conditions. Janet

Ned et al: Gary Sheth of our Permits Office has been working on the Navajo Four Corners Power Generating Station NPDES permit, so had these data from Navajo. They may be helpful to assess current San Juan River conditions based on past data pre-spill. Here you go. Janet

Hi Janet,

Here is the data that Navajo submitted as part of the Administrative Record for the FCPP NPDES permit. It covers a fairly long time frame... late 1990s to 2014 and 24 locations around Four Corners

Let me know if you have questions or need additional information.

Thanks,

Gary Sheth

Gary,

Patrick asked me to send you these data for your information. If you have any questions about them, please let me know.
